

Cotswold Gate, Chipping Norton

Delivering a story through Creative Play

Client: Chipping Norton Town Council

Address: Walterbush Road, Chipping Norton, Oxfordshire, OX7 5UY

Budget: £135,000

Age Range: Toddler, Junior, Teenage, Families

Project Story

A new housing development within Chipping Norton meant that a new play facility could be implemented. Chipping Norton Town Council contacted three play companies with a blank canvas and a generous budget. Proludic's local Area Manager and Design team created a bespoke design that told a great story with elements such as the dance Floss and Dab graphics that were incorporated into the colourful and aesthetically pleasing surfacing. The play equipment caters for ages as young as 6 months but also aims to be as challenging for those aged up to 14. The equipment caters for all abilities ensuring all children can play together.

After

Annabel Brown (Proludic Area Manager) was most attentive to all our requirements and a delight to work with.

LEAP Developments

A LEAP (Local Equipped Area for Play) is an area of open space which includes facilities for children who are beginning to experience play independently. LEAP's are designed to ensure the area can be used for physical activities alongside the play equipment. Its primary function is to engage local children and encourage growth and development.
