

# Bullington End Road, Castlethorpe

## Bringing new life to old play areas

Client: Castlethorpe Parish Council

Address: Bullington End Road, Castlethorpe, Milton Keynes, MK19 7ER

Budget: £10,000

Age Range: Junior, Toddler

### Project Story

Castlethorpe's younger play area aimed at under 12s only had a small multiplay unit and swings which needed some additional play equipment. Proludic proposed their Origin range which is manufactured from sustainable Robinia wood. Therefore, not only is Origin a range which is aesthetically pleasing but it also offers a wide range of play values. Proludic installed a trim trail, challenging monkey bars, a clatter bridge, balancing beam and a large climbing net. A car themed springer was also installed to bring some colour to the site.

After

“ Castlethorpe Parish Council procured playground equipment from Proludic. The parish council decided that Proludic had the best offering and provided overall the best value for money. The equipment is excellent and users are very happy with it. We would definitely recommend Proludic to other organisations. ”

Steve Bradbury - Clerk, Castlethorpe Parish Council

### Play for Learning

Playing is a fundamental requirement for a child's development, helping them evolve, both in terms of motor skills and at sensory, cognitive, creative and social levels. By playing children actively participate in their own development and growth. Play is, therefore, both the inherent mode of expression for children and is an important learning tool.
