

# Henley Road Play Area, Hurley

## Halloween Site Opening Fun!

Client: Hurley Parish Council

Address: Henley Road Play Area, Hurley, Berkshire, SL6 5LW

Budget: £15,000

Age Range: Toddler, Junior, Teenage

### Project Story

Henley Parish Council approached play suppliers for phase 3 of an existing site at Henley Road Play area. They were looking for the replacement of an old wooden unit which was rotten. Our Biibox was chosen due to its steel material making it durable. There are no moving parts which means maintenance is kept to a minimum. At a height of 4.36 metres, the unit gives a true WOW factor. Another reason Proludic were chosen is due to the fantastic site opening we provided. As you can see by the pictures overleaf, we made this special site opening Halloween themed due to the time of the year.

After

Before

It was great to incorporate our Biibox design into this project to add lots of play value and fulfil the client's needs with this metal structure.

Halloween Playground Opening

Proludic's Biibox range is predominantly metal and designed to offer children aged between 2 and 12 years both adventure and strong sensations. The range also has a modern look and feel, with many stylish elements designed to maximise play opportunities. Biibox provides opportunities for children to test and develop their motor skills. It acts as a meeting point and encourages social interaction amongst children who are eager to find excitement and adventure as well as other children to talk to.
