

Queens Walk Play Area

Origin Play Providing The Very Essence of Nature

Client: London Borough of Hillingdon

Address: Mount Pleasant, Ruislip, HA4 9HQ

Budget: £83,000

Age Range: Up to 12 Years

Project Story

The play area had a mixture of old equipment and patchy surfacing which created a very neglected feel to the large open space. Through extensive consultation, the client gained feedback from the community who wanted a more natural playscape. The transformation of the play space from neglected to inspiring was our challenge!

We created a design using our Origin range offering a range of play activities including balancing, climbing sliding rocking and swinging which were age appropriate and reproduced the very essence of what nature has to offer: a forest walk, the crossing of a stream, an uprooted tree trunk. It has transformed the bleak play space to one that is loved by the community providing a natural setting within an urban environment

It is so refreshing to see a play area which uses natural Robinia timbers within an Urban space. It has created an oasis for play which is well used and provides a source of play for children under the age of 12.

- Rob Baker - Proludic, Managing Director

Origin Equipment

Origin is a Robinia wood multiplay equipment range, great for natural settings. Origin has grown from the instinctive desire children have to play and interact with the natural environment. Taking inspiration from the natural environment that surrounds us.

Clean product lines, minimal design and essential play activities are all values which form the fundamental principles of the Origin range.
