

Tadburn Meadows

Nature Coming to Life Through Play

Client: Test Valley Borough Council

Address: Eight Acres, Romsey, SO51 5BP

Budget: £58,000

Age Range: All Ages

Project Story

Tadburn Meadows local nature reserve is an oasis of countryside set within an urban setting. Although largely serving as a public open space for informal recreation we have delivered an exciting new play area that enhances and compliments the surrounding environment.

Proludic were successful within the tender process and appointed to carry out public consultation with the local community. This is a brand new site, so there was a mixture of views and opinions which we listened to and discussed in depth to ensure that we created the perfect play area for everyone.

Our Solution for Tadburn Meadows has enabled children of a wide age range to explore and play within nature. Their senses will be awakened and stimulated by visual and tactile contact with the Natural Origin range that is made from Robinia wood.

After

This play area has been delivered to an exceptional standard, capturing the vision of the local community which was a challenge at times but Proludic remained highly professional throughout the project.

Origin Range

Origin Cableway

Design

Origin MPU

Origin Range

Origin is a Robinia wood multi-play equipment range, great for natural settings. Origin has grown from the instinctive desire children have to play and interact with the natural environment. Taking inspiration from the natural environment that surrounds us.

Clean product lines, minimal design and essential play activities are all values which form the fundamental principles of the Origin range.
